**Development (Naseej)  
2011 Work camps Cover letter**

Dear partners, friends and volunteers

On behalf of the team of Nablu Association for Social and Community Development, I would like to present to you our work-camps of 2011. We hope to welcome your volunteers to our exciting work-camps, where Palestinians and internationals will have the opportunity to work together to experience and discover the real Palestinian life, culture and struggle during a 2-weeks voluntary work camp.

Volunteering in Palestine is a unique experience for various reasons, not least of which is the complex and difficult situation Palestinians face every day. We hope that during our work-camps, you will become closely involved with the local community by extending a positive impact through your presence and expression of solidarity with Palestinian community. Every aspect of the work-camp has been designed to enable you to experience Palestine on a social, political and cultural level. Moreover, we are confident that these work-camps will allow you to enhance your knowledge and awareness of the socio-political complexities of the region in general.

Participants will come from different backgrounds and countries, which gives Palestinians and internationals the chance to get to know and exchange cultures.

The success of this kind of work-camp depends the most on the participants as well as the organizers! We hope that the participants will show a great deal of tolerance and open-mindedness towards our values, culture and way of running our work camps.

We are confident that your voluntary service in our work camps will be an experience that you will never forget.

We are looking forward to receiving your requests and working with you.

Jamal Daajna  
Work Camps and International Relations Coordinator
